

## ORAL PRESENTATION

Total number: 32

ORAL PRESENTER			
S.NO.	POSTER NUMBER	NAME	TOPIC
1	OP-1	Abdul Muheem	Dual drug-loaded nanostructured lipid carrier with pharmacokinetic modulator approach to combat HIV-1 viral reservoirs
2	OP-2	Araf Fatma	<i>Riyazat's</i> role in the prevention and management of a wide range of illnesses, with a particular emphasis on urinary incontinence ( <i>Salasal Baul</i> )
3	OP-3	Areeba Insaf	Development of synergy based cosmetic formulation for depigmentation of skin using in vitro and TLC-MS-Bioautographic studies
4	OP-4	Faris Al Toub	Biochemical and pharmacological evolution of calcium in various diabetic model
5	OP-5	Kamini	Pharmacological evaluation of Cannabinoids for management of neuropathic pain
6	OP-6	Md Afroz Ahmad	Neuroprotective effect of guggulipid alone and in combination with aspirin on middle cerebral artery occlusion (MCAO) model of focal cerebral ischemia in rats
7	OP-7	Md. Wasi Akhtar	Multi-targeted therapeutics in Unani medicine with special reference to haemopoietic formulations
8	OP-8	Moayad Mustafa Hejazi	Biochemical and pharmacological evaluation of atenolol (100mg), on Saudi hypertensive patients
9	OP-9	Mohammed Kaleem	Thymoquinone exerts inhibitory activities on breast cancer cell lines and protective effects against DMBA-induced breast cancer in female rats
10	OP-10	Mohd. Vaseem Ismail	Some biostatistical methods for pharmaceutical science research
11	OP-11	Monalisha Samal	Polyphenols profiling and development of synergy-based combination of AYUSH based medicinal plants for cognitive impairment
12	OP-12	Nikhila Shekhar	Acute oral toxicity study of capric acid by OECD guideline 423 in rodents

13	OP-13	Noor Fatima	Development and evaluation of natural lipid-based chemotherapy in Visceral Leishmaniasis
14	OP-14	Parakh Basist	Phytochemical and pharmacological screening of methanolic silk extract of Resha-e-Makkain <i>in vitro</i> and <i>in vivo</i>
15	OP-15	Preeti Biswas	Effects of an Ethanolic Extract of Vaccaria pyramidata Root on the Liver Injury in Rats
16	OP-16	Rabia Aziz	Comparison of effects of type-2 Diabetes Mellitus on mental health among middle aged males and females: A cross-sectional observational study
17	OP-17	Rebanta Roy	Investigating the interplay between stress responsive transcription factors, HIF-1 $\alpha$ and NRF2, in cancer and their modulation by spice-derived phytochemical
18	OP-18	Ritu Rani	Diuretic activity of the aqueous roots extract of <i>Leptadenia hastata</i> (Asclepiadaceae) in rats
19	OP-19	Rizwan Ahmad	Qualitative and quantitative estimation of bioactive constituents in <i>Rubia cordifolia</i> L. roots and their marketed products using HPTLC densitometric analysis
20	OP-20	Rustam Ekbal	Cardioprotective effect of isolated Swerchirin from Chiraita against the Isoproterenol-induced Myocardial infarction in <i>Wistar albino</i> rats
21	OP-21	Saiema Ahmedi	Potential Anti- <i>Candida</i> activity of Limonene
22	OP-22	Sakshee Sharma	Tracing phytochemical variability amongst species of Pippali using modern chromatographic techniques
23	OP-23	Seema Rani	Rejuvenation therapies for skin in Unani medicine
24	OP-24	Sharmila Dusi	Extraction, isolation, characterization and optimization of bio-active molecules from dry fruit extract of <i>Terminalia chebula</i>
25	OP-25	Shruti Mathur	Computational tools to open vistas on the novel phytoconstituents of Cannabis and regulatory aspects of Cannabinoid receptor
26	OP-26	Srishti Johri	Role of fungal cordycepin as 3'-deoxy-adenosine in treating clinical and sub-clinical illnesses
27	OP-27	Supriya Sharma	<i>In vitro</i> anti-inflammatory and antioxidant activity of acetone extract of leaves of <i>Maytenus emarginata</i> (Willd.) Ding Hou

28	OP-28	Sweety Parmar	Identifying multiple molecular targets of an anti-infective polyherbal formulation (Enteropan®) against a multidrug resistant <i>Pseudomonas aeruginosa</i>
29	OP-29	Vaishali Yadav	Genome stabilizing action of <i>Piper longum</i> against cyclophosphamide-induced genotoxicity in human peripheral blood lymphocytes and rodent model
30	OP-30	Varsha Srivastava	Anti-mycobacterial activity and phyto-synergy: An approach against <i>jaraseem-e-laban</i> (dairy-borne pathogen)
31	OP-31	Rabia Khan	Understanding and management cervical spondylosis and radiculopathy in Unani system of medicine with special reference to Hijamah-bil-Shart (Wet Cupping)
32	OP-32	Amandeep Kumar	Genetic diversity and population structure of an endangered Medicinal plant- <i>Aconitum heterophyllum</i> Wall. ex Royle
